

Dear Policyholder,

This past year we were blessed with a lower claims frequency than normal, but an unusually large number of our policyholders experienced major claims and total losses. It's a good reminder that the role of a mutual insurance company is to facilitate policyholders helping each other in their time of need.

Despite the number of large losses we ended the year with very positive underwriting results. These results can be attributed to the diligent work of staff and agents, as well as the ongoing responsible stewardship of our loyal policyholders. We were also supported in significant ways by our reinsurance partners who carried a portion of the large losses.

Premium continues to grow, but at a slower pace than it has historically. Efforts are in process to accelerate our organic growth in order to serve more policyholders. Prudent expense control and overall claims experience offset any shortfall in premium growth. Policyholders' Surplus increased strongly to \$164 million providing capacity to pay claims and invest for the future.

Our **A, Excellent** rating with AM Best and seventh consecutive designation by The Ward Group as one of the Top 50 property and casualty companies in the country reaffirms the long-term financial stability of the combined companies.

Our strategic initiatives this coming year will continue to focus on responding quickly to the changing needs of our policyholders, especially in the Farm & Commercial product areas. As a mutual insurance company we exist solely for the benefit of policyholders, not for outside investors. We invest all profits back into the company.

We appreciate the loyalty and commitment of our policyholders and will continue to work diligently to maintain your trust. Thank you for giving your agent and the Goodville and German Mutual team the opportunity to serve you.

David Gautsche
President & CEO
